**A FIELD OF VICK'S BRANCHING ASTERS ON ONE OF OUR FARMS**

We take this occasion to extend to all our friends in the wholesale trade our heartiest greetings and best wishes for the most successful season you have yet experienced. We also wish to express our thanks to you who have made it possible for us to again surpass all previous records in our wholesale department. We realize that such a growth in our volume of business is possible only by having the complete and ever increasing confidence of the dealers who place their orders with us. For this reason we look back over the past year with a good deal of gratification and look forward with confident hope and expectation of still greater achievements yet to come. We have taken the greatest care to have the quality of our stock up to our usual high standard and we know you will not be disappointed if you place your entire requirements with us. Another very important reason why dealers should be very careful in placing their orders this year is the fact that European growers are trying to unload their surplus stocks upon the American trade. Much of this stock is undependable because it is impossible to trace the source of supply. Remember quality in seeds is something that cannot be put into them except by the most careful plant breeding and seed growing. The wise dealer will therefore buy where he knows the stock is dependable. Furthermore, we urge our friends to send their orders in as early as possible. There is sure to be a very large demand for seeds this season. The wise dealer will order early and have his supply on hand and not be caught napping when the demand begins. Let us help you make this the most successful and profitable year you have ever had.

## TERMS

To all regular customers, all bills, with exceptions hereafter noted, for seeds, bulbs, or plants, will be due 30 days from date of invoice. A discount of  $1\frac{1}{2}$  per cent. from such bills will be allowed if paid within ten days. **Growing contract orders, 60 day acceptance upon delivery. Grass Seed, Clover Seed, Potatoes, and Onion Sets, invariably net cash.** Satisfactory references required from all new or unknown correspondents desiring credit. All orders from new customers amounting to less than \$5.00 must be accompanied by cash. We decline to send perishable goods **C. O. D.** unless a partial remittance is made in advance as guarantee of good faith. All **C. O. D.** charges are to be paid by purchaser. We are not bound by these prices for any length of time. All quotations herein are subject to advance without notice.

We send out no seeds on commission. All shipments **F. O. B. Rochester.** Cable Address, **Vick, Rochester.**

Our responsibility ceases on delivery of goods to transportation company in good condition. Claims for all losses or damage in transit should be made against the transportation company.

## Prices of Flower and Vegetable Seeds

**FIVE CENT PAPERS**—Per 100, \$2.50; per 1000, \$24.00.

**TEN CENT PAPERS**—Per 100, \$5.00; per 1000, \$48.00.

Not less than 100 papers at the 100 rate, nor less than 1000 papers at the 1000 rate. Dealers who prefer can make their own selection from our Retail Catalogue at the above rates, provided not less than 100 papers are ordered, nor less than five papers of a kind. Where less quantity is desired a discount of 50 per cent. from retail prices will be allowed, except in cases where the price per packet is plainly stated in this catalogue.

**All Novelties** at packet prices are net, from which there are no discounts.

Ounces and fractions thereof of vegetable seed 40 per cent. discount from retail prices. Flower Seeds by the ounce and pound, and Vegetable Seeds by the pound and bushel are priced net in the body of this catalogue—ten pounds the minimum amount at the hundred rate, except that in case of Peas, Beans and Corn 20 pounds is the minimum amount at the 100 pound rate;  $\frac{1}{4}$  pound at the pound rate;  $\frac{1}{4}$  bushel at the bushel rate. Smaller quantities at a slight advance. For scale of prices on Flower Seeds in fractional parts of an ounce see Flower seed pages. No quantity of seed packed from bulk for less than ten cents. When smaller quantities are required use the five or ten cent papers, taking advantage of the discounts indicated above.

## Boxes of Flower Seeds

For the convenience of seed dealers we put up boxes of seeds in papers, embracing those varieties most in demand, and in such proportions as our long experience has taught us are called for.

THE BOX OF FLOWER SEEDS contains \$5.00 worth of retail papers; price to dealers \$2.50; also, \$10.00 worth for \$5.00. As these boxes are filled early in the season, before the rush of spring orders begin, no changes can be made from the assortments we have put up.

## SHIPPING

Purchasers will please send explicit shipping instructions with each order. Where no such instructions are given we shall exercise our best judgment in the matter; but when goods have been so delivered at the freight or express station, in Rochester, in first-class condition, addressed as ordered, we disclaim all responsibility for any accident, damage, or delay en route. When goods are desired sent by mail, postage must be added at the rate of 10 cents per pound, otherwise we will deduct enough from the order to cover postage or add the postage to invoice as the case may require.

While we exercise great care to send out Seeds, Plants and Bulbs of the best types and of high germination, we give no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any seeds, bulbs or plants we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept goods on these terms they are at once to be returned and any payments made in advance for same will be refunded.

# Vick's Trade List for 1920

 A Telegraphic Cipher is attached to each article, which will enable orders to be sent by wire at comparatively little expense. For example:

Sixty Balcon means sixty pounds Improved Rustless Golden Wax Beans; or

Fifty Berg means fifty pounds Detroit Dark Red Beet, etc.

**This Telegraphic Cipher cancels all formerly printed.**

Ten pounds or more will be charged at 100 pound rates, except Peas, Beans and Corn on which 20 lbs. is the minimum at 100 lbs. rate; quantities of one pound and less than ten pounds at the pound price. For quantities of less than one-fourth pound a slight increase over the pound price is necessary. Bags and boxes at cost.

For some few articles, in larger lots than herein quoted, we will make special prices by mail or wire. Our supply is adequate for all reasonable requirements. Varieties shown in black face type are especially recommended for those who grow for the market.

IMPROVED RUSTLESS GOLDEN WAX

**Improved Rustless Golden Wax.** A strong grower, positively free from rust. Pods are meaty and well filled, of fine quality, and stringless from first to last. With its fine quality, hardiness, productiveness and freedom from rust, it has become a general favorite and a great improvement over the old-fashioned Golden Wax.

## Mangel Wurzel

Mangel Wurzel Beets are of especial value to stockmen and dairymen. They act as a mild laxative and keep the stock in good health, thus tending to produce flesh and increase the flow of milk. Especially now when all kinds of grain are so expensive stock owners should grow plenty of Mangels, Carrots, and other root stock for winter feeding, since they furnish the largest amount of food value at least expense. More tons of high class stock feed can be produced from an acre of Mangel Wurzel Beets, Sugar Beets or Carrots than from any other food stock that we know of.

Vick's improved strain of Danish Ballhead Cabbage has given the greatest satisfaction ever since its introduction. Many of the leading cabbage growers have used our seed for years and pronounce it much superior to any other strain in productiveness, solidity and long keeping qualities.

## Vick's Improved Danish Ballhead Cabbage

Of the many varieties of Cabbage introduced within the past few years none have attained a greater popularity, or given such general satisfaction as Vick's Improved Danish Ballhead. The fame of this particular strain has become world wide. It commands a higher price in the market than any other variety. It is remarkable for the solidity of its head and long keeping qualities. The heads are of medium size, with few outer leaves, admitting of close planting; exceedingly fine-grained, hardiest of all, tender, crisp, solid, with no waste heart. Will average six pounds per head. Our stock comes direct from the best growers in Denmark.

**Vick's Golden Nugget Corn.** This extra fine variety was introduced by us in 1892. It is now the largest selling variety we catalogue, and steadily growing in popularity with our customers. Ears are twelve rowed, large and handsome. The color is a rich creamy yellow. In flavor it is unusually sweet and delicious. As a variety it is one of the most productive, frequently having from two to four ears to the stalk. In season it follows a few days after the early varieties. Ears larger and more prolific than Golden Bantam, tender and unusually sweet. Ready for market only a few days after the earliest.

EXTRA EARLY  
PROLIFIC FLINT

This is the earliest variety of corn we have ever grown. It has been so satisfactory in every way that we highly recommend it for a locality where earliness is a deciding factor. This corn has never failed to mature a crop in the vicinity of Rochester.

## Vick's Perfection White Spine

Unrivalled in shape, size, color and productiveness. Without doubt White Spine and Long Green Cucumbers have larger sales than any other varieties. Now, there is a good deal of difference in the quality of the various kinds of seed sold under the above names. Our strains of these varieties have been carefully developed through selections from year to year, until in our estimation the fruit from our seed surpasses both in quality and yield any other strains.

INSPECTING A FIELD OF IRONDEQUOIT MELONS GROWN EXCLUSIVELY  
FOR SEED

## VICK'S IRONDEQUOIT MUSKMELON

Without doubt the finest Muskmelon ever grown, either for commercial purposes or for gardens. The flesh is a beautiful dark orange, skin is finely netted, yellow when ripe, possessing a most attractive appearance. The fruit is large; the flavor is delicious, sweet, rich and spicy. Every ounce of seed we offer comes from melons grown under our own supervision, and the seed stock selected by the most experienced men we employ. This melon holds the Rochester market to the practical exclusion of all other varieties. Moreover, whenever Vick's Irondequoit Muskmelon is offered on the markets of other large cities, it brings higher prices than any other kind

### Vick's Early Scarlet Globe Radish

As a forcing Radish Vick's Early Scarlet Globe has established a reputation as the leading sort—the best in every way. It is handsome in form and color—a beautiful oval and rich scarlet. The amount of its foliage is small compared with other varieties, and small for the size of the Radish. The peculiar merit of this variety as a forcing Radish is that it will bear the heat requisite for forcing without becoming pithy or spongy. The flesh is crisp, tender, juicy and mild. It is equally as good for open garden culture as for forcing, and therefore it commends itself equally to the amateur and the market gardener. The dealer who sells this stock sells the best.

*Our sales of this variety are rapidly increasing every year.*

Turnips for years have filled an important place in the diet of both man and stock. As a food for human consumption they are perhaps more widely used than any other vegetable except the potato. On account of their enormous yield per acre and their high food value they rank perhaps next to Mangel Wurzel as a root crop for stock feeding. There are several small early varieties that may be grown to advantage for early summer use for the table but as an all-around turnip for fall and winter use there is nothing to compare with Purple Top White Globe. This variety is grown to perfection in the vicinity of Rochester. Our soil and climate seem admirably adapted to the growing of this crop and a great deal of time and money has been spent in breeding up this strain. There are more Purple Top White Globe Turnips grown than all other varieties combined and in recent years the stocks of this Turnip, together with most other varieties of Turnips have become so badly mixed that two years ago we decided to increase our acreage and utilize our splendid seed stocks in order to be in a position to furnish the wholesale trade with strictly first class Turnip of the highest merit. The seed that we now offer is grown from carefully selected transplanted root stock. A glance at the above illustration will show you the type of roots from which it was grown. The tops are small, the leaves perfectly notched and the roots of a uniformly globe shape with very small tap roots. No better type can be grown either by the man who peddles his stock direct to the consumer or by the man who grows to ship in car lots to the larger markets. We are able to offer this extra selected seed this season at a price no higher than ordinary stock.

**Prices : 60 cents per pound, or \$55.00 per hundred pounds.**

**For a list of other varieties see page 20.**

# Grass and Clover Seeds

*Net cash. Prices subject to market fluctuations.*

Prices quoted on this page are for best grades only. We do not attempt to compete with much of the stock offered in the grass seed markets. Believing that our business is best advertised by high quality rather than competitive price we solicit orders only from those who believe that the best is always the cheapest. We can furnish any variety of the Fancy Grasses and will mail special prices on application. Ten pounds at 100-pound rate.

## VICK'S FAMOUS GRASS SEED MIXTURES

### VICK'S "VELVET LAWN"

To make a perfect lawn, good seed is absolutely essential. Vick's "Velvet Lawn" Grass Seed Mixture is composed of several grasses of the highest standard of purity and germination, and unsurpassed by any other mixture, regardless of price. Under ordinary conditions a velvet lawn is absolutely assured in a few weeks after sowing. Price per lb. 25 cents; per 100 lbs. \$23.90.

### VICK'S "SHADY SPOT"

**For any spot so Shaded that the ordinary Grass Seed will not grow.**

This is a combination of dwarf growing evergreen grasses especially adopted to secure a good growth of grass in shady locations.

Per lb., 25 cents. Per 100 lbs., \$23.00

### VICK'S "GOLF COURSE"

Some of the most successful championship courses were sown with Vick's "Golf Course" Grass Seed Mixture, a combination of the finest seed of tested, quick growing, fine-leaved, dwarf grasses especially adapted to the making of the finest Putting and Fair Greens.

Per lb., 35 cents. Per 100 lbs., \$33.00

### VICK'S "FAIR GREEN"

For use on golf courses, either in making a new fair green or in re-seeding an old green, our "Fair Green" Mixture will be found splendidly adapted. This mixture is gotten up for latitude of Western New York, but can be successfully used in most any locality.

Per lb., 30 cents. Per 100 lbs., \$32.00

### VICK'S "EXPOSITION PARK"

This mixture is composed of low-growing, fine-leaved, tough and hardy grasses that will stand the great wear tear that is required of the turf of Polo Grounds, Baseball Grounds, Croquet Grounds, Bowling Greens, Horse Show Paddocks, Public Parks and Picnic Grounds.

Per lb., 35 cents. Per 100 lbs., \$33.00.

# VICK'S FLOWER SEEDS

**T**HE flower seeds we offer are grown largely upon our own farms; others we have grown for us on contract and under our personal supervision by the very best specialists both at home and abroad; and in climates and soils best adapted for each particular variety. The seeds used in mixtures are selected from flowers the *brightest in color* and *most perfect in form* and can be relied upon for purity and vitality.

## VICK'S FAMOUS ASTERS

The Aster is now the most important, commercially, of the summer and autumn flowers, and we are very proud of the part we have taken in its development. We are now the largest growers in the world of high grade Aster Seed, and we have introduced more good varieties than all other American seedmen combined.

For the benefit of Florists and others especially interested in Asters we issue a Florists' Aster Book giving illustrations of all the leading varieties. The handsomest work of its kind ever published. Free.

ASTER DAY ON VICK SEED FARMS

The wonderful display of Asters on our farms each season attracts a large number of visitors. As many as 7,500 have been our guests on a single day. If you are in the vicinity of Rochester during the Aster season you should not fail to pay us a visit.

**Vick's Extra Early.**

Earliest of all. Is a new strain developed by us, selected especially for earliness and size of bloom. Plants grown from seed sown in the open ground in May, on our own farm, begins to bloom in July and continues to bloom until frost. The plants are about three feet in height. Flowers are as large and fully as beautiful as the best late flowering kinds.

HOLLYHOCKS

DOUBLE HOLLYHOCK

The demand for hardy perennials has increased steadily from year to year until it taxes the capacity of our nursery to supply the increasing demand. Hollyhocks are one of the most popular of all the perennials. We grow on our farms the best and choicest varieties both for seeds and plants and the list below which includes the justly celebrated Newport Pink is composed of varieties all of which are of proven value. The seeds for these perennials should be sown during July or August and will bloom the second year from seed usually. Some few varieties, however, will bloom the following season. In addition to supplying you with perennial seeds you will find on the pages immediately following the flower seed pages a complete list of hardy perennial plants, all of which are heavy field grown stock and most of which will stand dividing.

Pansies are one of the most important spring crops of most florists and others who grow plants for the spring trade. Seed of dependable quality is unusually scarce. We have been fortunate in getting a fair supply of English grown stock of unusual quality and varieties that enter into our mixtures come from the section of England where the world's most noted pansies are grown. Many of these varieties if bought individually would cost you several times what you pay for the mixtures but by blending them in proper proportion with select strains of Giant Pansies we are able to offer in our Superb Mixture pansies of unusual merit. Our Masterpiece mixture is well worthy of the name it bears while our Peerless Mixture is the best value for the money that we know anything of. All of our mixtures as well as our named varieties are tried out on our own trial grounds before they are placed on the market and only those that come up to the standard of Vick Quality are ever catalogued.

## GIANT FLOWERING PANSIES

We have dropped the old fashioned “Standard” or ordinary sized Pansies from our list of named varieties.

# New Early-Flowering Long-Season Spencer Sweet Peas

Immense waved orchid-like flowers on long stems that bloom four weeks earlier than the late Spencers, and continue to blossom for four months. For forcing or open-ground culture.

**Early Morning Star.** Deep orange-scarlet or flame color in standard with rich orange-pink wings. It does not burn in the open, and under glass will be magnificent. The flowers are large and of best Spencer form, and are borne in threes and fours in wonderful profusion.

Packet of 25 seeds, 20 cents, ounce 75 cents, 1-4 pound \$2.50.

**Early Song Bird.** We are sure this will be the early pale pink for florists. The flower is the same color as the "Florence Morse Spencer," and has the same excellent form and features of "Mrs. Hugh Dickson" but is on white ground. The placement of the flowers is splendid for packing, and the flowers are borne on long stems in threes and fours.

Packet of 25 seeds, 20 cents, ounce 75 cents, 1-4 pound \$2.50.

**Early Melody.** Deeper shade of pink than "Early Song Bird," on white ground, closely resembling "Countess Spencer" and near "Hercules." Can be described as rose pink on white ground. Four large well-waved flowers are borne on nearly every stem.

Packet of 25 seeds, 20 cents, ounce 75 cents, 1-4 pound \$2.50.

**Early Spring Maid.** The color is light pink on cream ground, and blossoms have the same splendid characteristics as "Mrs. Hugh Dickson." There is no Early Spencer cream-pink as attractive as "Early Spring Maid."

Packet of 25 seeds, 20 cents, ounce 75 cents, 1-4 pound \$2.50.

**Early Snow Flake.** Pure white. This is the best Early-Flowering Spencer we have seen. The blossoms are very large and of the best waved Spencer form. The flowers are borne in wonderful profusion on long stems. This will be in great demand by all who grow for market.

Packet of 25 seeds, 20 cents, ounce 75 cents, 1-4 pound \$3.50.

**Early Heather Bell.** This will be one of the most popular shades with all florists, as it will be so useful in making up for any occasion. Flowers are very large, borne in threes and fours on stout stems. Color is a rich, pleasing mauve. After standing in water becomes mauve lavender.

Packet of 25 seeds, 20 cents, ounce 75 cents, 1-4 pound \$2.50.

# VICK'S DAHLIAS

## CACTUS VARIETIES

**Cactus Dahlias** have large, loosely formed flowers. The long, narrow petals are variously rolled or twisted. The flowers, many of which are nodding on slender stems, are the most graceful and artistic of all the Dahlias.

Dozen, \$1.50; 100, \$10.00; except as noted.

Not less than 6 at the dozen rate; 25 at 100 rate.

**Countess of Lonsdale.** Rich salmon, tinted apricot. Hardy and very free flowering. Dozen, \$1.50; 100, \$10.00.

**Kriemhilde.** Exquisite combination of ivory white and pink. "Queen of the Cactus Dahlias."

**Matchless.** Dark, velvety maroon.

**Mrs. Jas. Mace.** Delicate blush pink.

**Princess.** Pure white.

**Volker.** Clear lemon yellow.

## DECORATIVE VARIETIES

**Decorative Dahlias** are intermediate between Cactus and Show. The massive flowers are not so globular as the Show and the petals are broad and somewhat flattened.

Dozen, \$1.50; 100, \$10.00.

**Catherine Duer.** Cherry scarlet, overlaid crimson.

**Constancy.** Rich reddish orange, shaded bronze.

**Jack Rose.** Rich velvety crimson, early and free flowering.

**Lord Lyndhurst.** Rich glowing scarlet. Fine long stemmed flowers.

**Minnie McCullough.** Yellow, overlaid with bronze.

**Zulu.** Jet black. Changing to black maroon.

## VICK'S MIXTURE OF NAMED DAHLIAS

A Fine Mixture of the Leading Named Varieties Listed Above—Cactus, Decorative and Show.

Dozen, 1.00; 100, \$8.00.

JACK ROSE DAHLIA

**Jack Rose.** One of the best of the Decorative Dahlias. Flowers medium size and produced in great profusion. They bloom continuously over a long season and are unexcelled for decorative purposes., "Color bright Carmine overlaid Violet."

## SHOW VARIETIES

The old fashioned double Dahlia. Ball-shaped flowers; the petals quilled or tubular. As a class they are more formal than the Cactus or Decorative. They still retain their old time popularity, on account of their long stiff stems and their lasting qualities as cut flowers.

Dozen, \$1.25; 100, \$8.00.

**Ada Tiffin.** Light peach, tinged with rose.

**Arabella.** Pale primrose, tipped lavender and shaded rose. A charming color and an early, free blooming flower.

**Bird of Passage.** White, tipped with pink.

**Miller's Red.** Dark crimson scarlet. Large and free flowering.

**Red Hussar.** Brilliant glowing scarlet. Lighter shade than Miller's Red and not quite so large. Free flowering.

**Red Warrior.** Rich Crimson scarlet, full to the center, very free blooming.

Saskatoon, May 1, 1919

I have won at various flower shows with your Gladioli and Dahlias, and hope to do so again. Glad to say that with your Asters, our school gardener and I have in the last few seasons cleaned up the prizes at the Horticultural Show here, and this spring your seed is again coming on vigorously.

# FERTILIZERS

The Prices on this page are Net Cash.

## PULVERIZED SHEEP MANURE

Pulverized Sheep Manure is thoroughly dried and finely ground. There is hardly a florist and but very few gardeners who do not use it in considerable quantities. The fertilizer that we offer is of the highest chemical analysis and there is nothing better for mixing in bench soil and for top dressing for roses, carnations, etc. Being thoroughly dry and comparatively free from odor it makes a splendid dressing for lawns. You get better results and quicker results than from stable manure without the unsightly appearance of the latter.

Price: Per hundred pounds, \$2.50; five hundred pounds, \$10.00; thousand pounds, \$19.00; one ton \$37.50

**Nitrate of Soda** (Chili Saltpetre). The best and cheapest form of Nitrogen for plants. Highly concentrated and immediately available. Nothing like it to make plants grow. 5 lbs., 50 cts.; 25 lbs., \$1.75; 50 lbs., \$3.00; 100 lbs., \$5.50

**Imported Scotch Soot.** Original sack (about 108 lbs.), \$4.00.

## Horticultural Requisites

**GLAZETITE, Glazing Cement**, (formerly Nebelastix)

A perfect compound for glazing, reglazing and repair work on greenhouses and sash. It is superior to putty, as it never gets hard or brittle. It will outlast putty three or four times—no loose or sliding glass to bother for many years. It contracts and expands with the greenhouse, thereby eliminating broken glass to a minimum. Its elasticity remains under atmospheric conditions, regardless of how hot or cold the weather may be. Glazetite is always ready for instant use and will not harden on your hands and we sell it under a money back guarantee. Its color is black, being made from long fibre abestos and elastic gums. In glazing, three gallons will set one thousand feet of glass. We offer you this Glazetite Cement at the following prices:

5 and 55 gallon steel drums, \$1.50 per gallon. 5 gallon cans, \$1.60 per gallon; gallon can, \$1.65; 1 Glazing Gun, gratis with each 35 or 55 gallon drum. Glazing Gun alone, \$2.50. New One-Hand Glazing Gun, \$5.00 each.

### ELEVEN THOUSAND BUSHELS DANVERS YELLOW GLOBE ONIONS A MONEY MAKING CROP

The magnificent display of Danvers Yellow Globe Onions shown in the picture above was reproduced from an actual photograph showing two of our men in a field grown by the Grinnell Co., on the Western New York Farms near Albion, N. Y. At the time this picture was taken onions were worth \$2.00 a bushel. Onions are now bringing over \$3.00 a bushel.

Successful Onion Growers use Vick's Own Selected Strain Danvers Yellow Globe Onions in preference to all others. Our seeds are **northern grown**, therefore adapted to growing in any section or climate. This variety is the standard in all the leading Eastern markets, both for local use and shipping. It produces bulbs of usable size early in the season so that it is a very profitable variety all summer. The perfect globe shape and the beautiful brownish yellow skin makes it very attractive. It is hard and solid and in size, the bulbs average three inches in diameter. The flesh tender, pink and white, the flavor sweet, and mild. All these characteristics make it by far the best and most popular sort for both the home gardener and for those who grow for the market.
